

First we need to locate the script and provide the permission.

Chmod 777 task.sh

```
server@ubuntu:~$ pwd
/home/server
server@ubuntu:~$ ls
Desktop  Documents  Downloads  Music  Pictures  Public  task.sh  Templates  Videos
server@ubuntu:~$ ./task.sh
7
8
9
5
1
2
3
6
10
4
server@ubuntu:~$
```

When you run the script ./task.sh it will show the numbers 1-10 in random order

Please no run sh task.sh it can run with some errors.
